Post Office Letter List. AGENTS FOR THE PATRIOT.

Ma. E. R. Glascock has been appointed our agent for this city. He is authorized to collect the accounts, notes, &c . of the concern, and also to solicit and make contracts for advertising and Job Work. MR R. P. Moss is our travelling agent, and is authorized

ADIEU -The connection which the undersigned has heretofore sustained to the Patriot terminates with its host of intelligent and indulgent readers. A year has elapsed since we became an attacke of the paper, and during that time we have endeavored, in our humble way, to discharge faithfully the duties which devolved upon us. We trust that our efforts have not been profidess, either to the patrons of the Patriot, or its proprietors. Both have our warmest acknowledgments for the generous and grateful tokens of confidence and satisfaction which from time to time have been vouchsafed to us. Our relations with the Patriot "force," editors, proprietors, and all, have been of the most agreeable nature, and, should life be vouch-afed to us, as the days of coming years roll by, the recollections of that just passed, will be recalled as among the most pleasant of them all.

The success of the paper has been uninterrupted, and, in this city, we believe, unprecedented. This fact cannot but be alike gratilying to all parties

Wishing our friends of the Patriot, proprietors, and patrons, continued prosperity, we take our leave of them for a more advantageous engagement in the same field of labor. T. H. GLENN.

The "Shelby Guards" will give a grand Military Ball on the evening of the 20 inst., at Odd Fellows Hall. Besides the usual attractions, every one who purchases a ticket will obtain, in addition some handsome gift. It will, no doubt, be a splendid

AUCTION SALE OF VALUABLE GOODS .- The attention of our readers is directed to the advertise ment in another column of Trabue & Lucas's Auction Siles which take place to-day and to-morrow. The Goods embrace many articles of value and use which, at the present time, are selling in retail at high figures. They can doubtless be purchased at th se sales for much lower prices. Let all who are in want of any of the articles enumerated, or of To Architects, Bankers, Contractors and any thing in the line of T. & L.'s goods, be sare to attend. They will not fail to be supplied with goods at bargains.

THE NORTH AMERICAN REVIEW. - We are indebted & Mr. Emmons, agent of this standard quarterly, for the April number, which is filled with an entertaining and Instructive vari ty.

REAL ESTATE SALE -By reference to an advertisement in this morning's "Parator," it will be seen that the Foster Mill tract of land, near this may 6-1 meaw. city, will be sold by Mr. J. W. Dabbs on the 26th inst. This property is very valuable, and is offered on favorable terms, for either speculation or other purposes. Buyers will do well to examine it before the day of sale.

New Music .- Friend McClure, our energetic music merchant and music publisher has sent us two very fine waltzes, one of them the ' Ranuaculus," by Prof. C. Hess, and the o her the "Rosebud, " by M. Kinley, both of this city. Both pieces are very beautiful and we are told, they are going off exceedingly tast. Go to Mac's soon if you desire a copy of each; or the editions may be exhausted before you are supplied.

THEATRE -- The performance at the theatre tonight are for the benefit of Miss Georgiana Hodson, of the Op ra, on which occasion will be produc d the "Bohemian Girl" and "Pocahontas." Both of these are excellent pieces. The latter is FISHING SEINES a mirtl-provoking extravaganza in which the accomplished beneficiary, as the Indian Princess, Pocahontas, has achieved distinction. It is a piece, toe, in which Robertson, as Powhattan, always makes a decided bit. Ina-much as the entertainmerts are of the most attractive character, and a compliment to a lovely woman is intended, we have not the least doubt that the theatre will be densely packed. To think otherwise would be unjust to the liberality and gallantry of our citizens.

Cumberland Coal.

A most beautiful article of superior Cumberland Coal has been received, and now offered for sale by HAYDEN, JASPAR, and HAILE, on College street, opposite the paint shop of Capt. W. H. Horo. Orders will be promptly filled by application at their of-

Crooker's Millinery Establishment. We doubt whether the fair dames and belies of Nashville have ever experienced so much difficulty in the selection of a bonnet, as this season, at this establishment. The cause is not to be found in the increased lastidiousness or captiousness of their tastes, nor in the paucity of the stock or inelegance of the styles. No; we must look for it in some other quarter. Their fancies, to tell the truth, have been bewildered by the great variety and beauty of the assortment to choose from. They experience such sensations while beholding it, as one feels in a rich conservatory surrounded by the rarest exotics, andlaved to their delicious perfumes. They have such emotions as led the poet to wish that the lips of all womankind, especially the beauties, were condensed into one pretty pouting pair that he might, in kissing them, kiss the whole race. Where there is so much elegance, so great a variety, a choice must be difficult. The thing's natural; and the dear creatures are not to blame. But not of bonnets alone does Crooker's congress consist. Nearly all descriptions of millinery goods are represented there-from the lightest and most etherial to the Our Stock of Seeds is now complete, consisting in heavier fabrics which art produces to adorn the loveliest of nature's bandiworks.

Because of its great success in most of the European States, its introduction into the United States was intended more especial y for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its trufty wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose extitutions may have been impaired by the continuous se of ardent spir ts, or other forms of dissipation. ARCHITECTS AND BUILDERS should not fail to

examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth sur-face that will resist the action of the atmosphere in every face that will resist the action of the atmosphere in every climate. It is impervious to water, clastic and flexible. It contracts and expands with the changes of the a mosphere, and will neither exporate, crack nor ret; and, as to its furability, there is no question.

It is practically imperiabable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good heathing, old shineles, tar and gravel, tip, sinc, or pper, or iron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet, it being far for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will live better satisfaction.

It will also be found to be the best thing ever invented to cover or mend old leaky tio, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two d llars and fifty cents per hundred square feet, which is chesper and much better than paint. This Rooflog will be found to be the best theng for covering large Roofs where they are exposed to fir —such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depota, Station Bouses, Steamboat Deeks, and, in fact, every kind of Roof where there is an external exposure from fire.
